

Publication Ethics and Malpractice Statement of PUJM

The journal is committed to maintaining the highest level of integrity in the content published. This journal has a Conflict of Interest policy in place. The journal use plagiarism detection software to screen the submissions. If plagiarism is identified, the Higher Education Commission guidelines on plagiarism will be followed. Content published in this journal is peer reviewed.

Editorial Board

Updated affiliation and full names of Editorial Board members are available.

Open Access

This journal offers authors a choice in publishing their research articles. Currently, the publication of research papers in the journal is **free** and no subscription fee to access any of the published papers.

Authors Responsibilities

After the acceptance of article it is necessary for the author(s) to format their article in Latex file provided to the corresponding author from PUJM managerial team. The corresponding author has to provide the information of the significant contribution of the remaining author(s); the author(s) are obliged to provide retractions or corrections of mistakes; and authors should provide a list of references, financial support (if any); it should also be forbidden to publish same research in more than one journal. Papers submitted to Punjab University Journal of Mathematics should be written in good English. The abstract should make clear what's new in the paper.

Journal Author Rights

In order for PUJM to publish and disseminate research articles, we need publishing rights. This is determined by a publishing agreement between the author and PUJM. This agreement deals with the transfer or license of the copyright to PUJM and authors retain significant rights to use and share their own published articles.

Peer-Review process

Peer review is the major quality maintenance measure for any academic journal. This journal operates a single blind review process. All contributions will be initially assessed by the chief-editor for suitability for the journal. Papers deemed suitable are then typically sent to a minimum of two independent expert reviewers working in the same field to assess the scientific quality of the paper. The chief-editor is responsible for the final decision regarding acceptance/rejection/revision of articles. The chief-editor's decision is final. PUJM welcomes the original research article, long papers and short papers which are not previously published or submitted for any journal or conference publication. The review process is fully confidential.

Publication Ethics

PUJM takes the responsibility to enforce a rigorous peer-review together with strict ethical policies and standards to ensure to add high quality scientific works to the field of scholarly publication. PUJM takes cases of plagiarism, data falsification, inappropriate authorship credit, and such other publishing ethics issues very seriously and our editorial board proceeds in such cases with a zero tolerance policy. To verify the initial originality of content submitted to our journals, we use turnitin to check submissions against previous publications.

Copyright and Access

Articles published in PUJM will be Open-Access articles distributed under the terms and conditions provided to authors. Upon acceptance of an article, authors will be asked to complete a 'Journal Publishing Agreement'. An email will be sent to the corresponding author confirming receipt of the manuscript together with a 'Journal Publishing Agreement'. Copyright form is also available on the PUJM website. It is necessary for the authors to submit copyright form when they submit their final paper after acceptance.

Archiving	All the accepted papers from 1967 are electronically available at PUJM website.
Ownership and Management	The journal is owned by the University of the Punjab, Lahore-Pakistan and managed by the Department of Mathematics.
The Web Site	http://pu.edu.pk/home/journal/pujm/#
Publishing Schedule	The frequency of the journal is on quarterly basis. All submitted articles are acknowledged and refereed. We publish volumes in March, June, September and December. Each volume consists of 10 to 12 papers.
Name of the Journal	Punjab University Journal of Mathematics
Role of Reviewers	Reviewers play a pivotal role in scholarly publishing, and their valuable opinions to certify the quality of the articles under consideration.
Subscription of PUJM	There is no subscription fee. All the contents are freely available.
Publication of Proceedings	We also welcome papers for the proceedings of any conference in a special issue which will go under our usual review process.
Accepted Papers	All the accepted papers are uploaded at PUJM website. If your manuscript is accepted it will be checked by the managerial staff for spelling and formal style before publication.
Funding Institutions to PUJM	Higher Education Commission, Islamabad and University of the Punjab, Lahore provides funds to the Punjab University Journal of Mathematics.
Aims and scope	The Punjab University Journal of Mathematics is an international peer-reviewed open access journal focused on mathematical sciences and publishes letters, regular research papers, review articles and comments. The journal also publishes topically selected special issues for conference proceedings in mathematical science. The aim and scope of the journal is to provide an important reference for the advancement and dissemination of research results that support high-level learning, teaching and research in the fields of Mathematics. Our aim is to encourage scientists to publish their mathematical and theoretical research in as much detail as possible. There is no restriction on the length of the papers.
